

We are seeking self-motivated and interested individuals with PhD and/or MD to apply for postdoctoral fellow in the joint labs of Ying-Hui Fu and Louis Ptacek at University of California San Francisco. Our research is focusing on the investigation of human sleep behaviors including sleep schedule and sleep duration. We apply methodologies from various disciplines in our studies including genetics, molecular, cellular, biochemical, etc. We are also implementing optogenetic approach. The salary and benefit for Postdoc fellow is based on NIH of USA standard guideline. Individual who is interested in applying, please email [ying-hui.fu@ucsf.edu](mailto:ying-hui.fu@ucsf.edu) directly.
