Memorandum of Understanding

Dear Professor Fukada,

The Board of Directors of the EBRS unanimously supports a 'Memorandum of Understanding' (MOU) between the European Biological Rhythms Society (EBRS) and the Japan Society of Chronobiology (JSC). As part of the MOU, we agree to reciprocal arrangements which welcome members of both societies to attend EBRS or JSC meetings and other events at the member rates published by the host society.

We applaud formalizing this arrangement as it functions to improve exchange and to increase collaborations between scientists from our societies.

Sincerely,

**Prof. Martha Merrow, Ph.D.**

PRESIDENT, EUROPEAN BIOLOGICAL RHYTHMS SOCIETY
